To ensure good communications between the EPA, the Montana Department of Environmental Quality, the USDA-Forest Service, the Bureau of Land Management, and the U. S. Fish and Wildlife Service an inter-agency meeting has been planned in Helena from 9:00 A.M. to 3:30 P.M. on Thursday, February 27, 2014. The meeting will be held in the Tizer/Elkhorn Conference Room at the Helena National Forest Supervisor's Office (2880 Skyway Drive) which is located across from the Helena Airport Terminal. The goal of the meeting is to reaffirm inter-agency dialogue, introduce various agency personnel for various projects, outline 2014 projects with proposed partners, and give insight into where we have come from and what is our future direction (including projects and funding mechanisms). In the past such meetings have resulted in closer cooperation and coordination among the agencies. This cooperation and coordination has allowed the various agencies to build off the momentum of each other.

AGENDA
